COMMENTS BY TONY PIMENTEL

COMMENTS BY EXECUTIVE DISTRICT MANAGER:

Mr. Virgen reported that the new employee will be working from 9am-3pm and will have a break in between. She will be here to attend those that come into the office and answer phone calls and take messages. There are people that come during the day to get a PPE and as long as they bring their ID's and we take their names and Mr. Virgen is ok with given them out but of course the intention it give them out first to the seniors.

- a. Status on Scholarship's

Mr. Virgen reported that last year we had given out scholarships for students going in to the medical field. Also there are a lot of students already enrolled in the nursing program and he recommends considering doing half and half but it is really up to the board but he does really recommend it. We did 30 last year and maybe we can do 50 for high school students and 50 for those that are already enrolled in those healthcare medical programs. With one of the

meetings with IVC that was one of the conversations they had and once in the program it is pretty expensive and we obvious provide only those in Calexico.

He is going to send the board and link and requested for the board to look at it because it has a lot of information. Another thing we need to consider is who we are trying to target for these programs. Is it the seniors? Do they have an iPad and know how to video conference? Now if we are targeting somebody else then that is a different story but the target audience is what we have to consider who they are because that is where this program is going to be taken for but if our target audience are the seniors during this COVID thing we are really going to have to reconsider that before making a real decision because that is important for you to know.
